

AIR CONDUCTION OVERVIEW

Air for living.

SQUARE AIR LINES

Pichler "Mini Channel System"

Galvanised flat channels with only 50 mm installation height for wall and ceiling installation.

"Distributor box"

Six-channel plastic header and distributor box. Up to 12 connections possible.

AIR CONTROL:

"Valves"

Throttle valves, sealing valves and adjustment valves for regulating the air flow accordingly.

ROUND AIR LINES

"Spiro Vent, Spiro Safe"

Fittings in "Safe" design comply with the tightness class C.

Pichler "Distributor box" system

Various designs for insulated, galvanised header & distributor boxes for single-family homes and housing construction. The removable fronts can be exchanged with any other fronts depending on the installation position.

Pichler system "Volume flow regulator round & square"

Round & square volume flow regulator with optional insulating shell and MP bus interface for the energy-efficient operation of a ventilation system.

FLEXIBLE AIR LINES

Pichler "KomFlex" system

Extremely flexible dual-layered polyethylene pipe with corrugated outer and smooth inner design for convenient running.

AIR LINE COMPONENTS

"Inlet and outlet elements"

Blow outlets, deflecting cowls, roof hoods, lamellae hoods as well as various filter boxes made of galvanised sheet steel, copper or stainless steel available.

SOUND ISOLATION

Pichler system "Flat, round pipe, aluminium and efficient redirect mufflers"

We offer a comprehensive assortment of mufflers which have been optimised for sound dampening in our acoustic chamber.

Pichler "Aluminum pipe" system

Flexible ventilation pipe made of two-layer aluminium strip. Optionally isolated and perforated on the inside.

FIRE PROTECTION

"Fire dampers, fire stops"

We have fire dampers in both round and square forms in stock. We offer a wide range of fire-protection related products.

Comfort ventilation

AIR DISTRIBUTION OVERVIEW

Air for living.

VENTILATION VALVES (SUPPLY AND EXTRACTED AIR)

"Valves"

The optimum air distribution in the room requires specific know-how. Both the optimisation related to the flow as well as and appealing design is important to us.

FILTER

"Filter"

Different filter types and classes available as outdoor air filter and extracted air filter.

ACCESSORIES

"Various adhesive tapes, sealing compounds, attachment material, band clamps, elastic connectors"

"Design outlets"

Stainless steel, copper or plastic ventilation grilles with fixed slats in round or square design.
